PROFESSIONAL SUMMARY

Results-driven **DevOps Engineer** with **6+ years of experience** designing, automating, and scaling high-availability cloud infrastructure across AWS, GCP, and Azure. Currently at **Webcontrive**, leading production AWS migrations, Kubernetes platform engineering, and zero-downtime CI/CD automation. Specialized in **Terraform IaC**, **Kubernetes (EKS/ECS)**, **GitOps (ArgoCD)**, and **FinOps cost optimization**. Proven track record: 99.95%+ uptime, 30–60% cost reduction, and zero-downtime migrations at scale. Currently pursuing **AWS SAA-C03 certification**.

CORE TECHNICAL SKILLS

Cloud Platforms: AWS (ALB, ASG, S3, CloudFront, RDS, EKS, ECS, DMS, Route53), GCP, Azure

Containers & Orchestration: Docker, Kubernetes (K8s), ArgoCD (GitOps), Amazon ECS

Observability: Prometheus, Grafana, AWS CloudWatch, Datadog, SNS/Lambda alerting

OS & Scripting: Linux (RHEL, Ubuntu), Bash, Python

IaC & Automation: Terraform, Ansible, CloudFormation, Helm

CI/CD Pipelines: GitHub Actions, Jenkins, GitLab CI, OIDC Authentication

Security & Networking: Sophos & FortiGate Firewalls, IAM, VPC, Cloudflare WAF, SonarQube

Virtualization: VMware vSphere ESXi, KVM

PROFESSIONAL EXPERIENCE

DevOps Engineer – Webcontrive

NOV 2025 – PRESENT

- Led production infrastructure migration from DigitalOcean to AWS multi-region (Mumbai & Hyderabad), reducing architectural overhead by **25%**.
- Architected high-availability wishlist.webcontrive.com deployment using Terraform IaC with ALB, Auto Scaling Groups, and Multi-AZ RDS.
- Implemented Face Swap Pro AI on-premise GPU infrastructure, cutting cloud compute costs by **60%** vs. cloud GPU pricing.
- Established proactive monitoring with AWS CloudWatch, Lambda, and SNS (Slack/PagerDuty), reducing MTTR by **40%**.
- Architected Edu-Platform CI/CD pipeline with GitHub Actions + Azure OIDC, eliminating 100% of hardcoded secrets.

AWS Engineer – OptimumBrew Technology LLP

APR 2025 – OCT 2025

- Maintained mission-critical AWS cloud infrastructure supporting **99.9% uptime** across production services.
- Optimized Jenkins-based CI workflows for Android APK generation, improving build speeds by **30%**.
- Integrated SonarQube quality gates into deployment pipelines, reducing production bugs by **20%**.

Sr. Server and Cloud Engineer – Logix Built Solutions Pvt. Ltd.

FEB 2022 – FEB 2025

- Architected multi-cloud infrastructure on AWS/GCP, improving scalability by **60%** and reducing deployment lead times by **40%**.
- Deployed and managed Amazon ECS clusters for containerized microservices, slashing resource wastage by **35%**.
- Standardized Terraform IaC blueprints ensuring **100% environment parity** across Dev, Staging, and Production.
- Optimized VMware vSphere ESXi cluster environments, achieving **80% faster VM provisioning**.
- Implemented FinOps cost governance across 15+ AWS accounts — consistent **30–40% year-over-year savings**.
- Awarded *Server / Cloud Support Dynamo* three consecutive years (2022, 2023, 2024).

Network Engineer – OptimumBrew Technology LLP

JAN 2020 – JAN 2022

- Managed FortiGate Firewall security policies and server infrastructure for **60+ users**.
- Architected and automated backup solutions for self-hosted GitLab, NextCloud (**500GB+**), Zulip Chat, and Redmine servers.
- Engineered automated JFrog Artifactory backup using Bash scripting.

IT Infrastructure Faculty – Prakshal IT Academy

SEP 2017 – JAN 2020

- Delivered hands-on training in AWS cloud, virtualization, and network engineering to **40+ students**.
- Introduced cloud architecture concepts including scalability, high availability, and disaster recovery.

KEY INFRASTRUCTURE PROJECTS

Quickhunt AWS Migration & Architecture (AWS · Terraform · ALB · CloudFront · RDS)

- Migrated DigitalOcean VPS to two-tier AWS HA architecture with CloudFront, S3, ALB, ASG, and Multi-AZ RDS — achieving **99.95% availability**.

FinOps Cloud Cost Optimization (AWS · Spot Instances · Organizations · Cost Explorer)

- Multi-account governance with SCPs, spot instance pools, and cost-anomaly detection — **30–40% consistent savings**.

Edu-Platform Secure CI/CD (Azure · GitHub Actions · OIDC · SonarQube)

- Passwordless OIDC authentication pipeline eliminating all hardcoded secrets — **40% reduction in production vulnerability risk**.

Face Swap Pro AI Infrastructure (On-Premise GPU · Load Balancing · Monitoring)

- Custom GPU cluster for high-volume AI workloads — **60% cost reduction** vs. cloud GPU compute at equivalent throughput.

CERTIFICATIONS & CREDENTIALS

AWS Certified Solutions Architect – Associate (SAA-C03) Amazon Web Services	In Progress
AWS Certified Solutions Architect – Professional (SAP-C02) Amazon Web Services	Roadmap 2026
Kubernetes Certified Administrator (CKA) Cloud Native Computing Foundation	Target Oct 2026
Red Hat Certified System Administrator (RHCSA) Red Hat	Certified
DevOps Professional Intellipaat	Certified

AWARDS & RECOGNITION

 Server / Cloud Support Dynamo – Logix Built Solutions Ltd.	Oct 2024
 Technical Support Dynamo – Logix Built Solutions Ltd.	Oct 2023
 Best Server Support Engineer – Logix Built Solutions Ltd.	Oct 2022
